

WHAT CAN WE CREATE FOR YOU?

Pelco Component Technologies provides an extensive range of standard items, innumerable customizable solutions and superior personal service.

Five divisions are part of the Pelco operation in Cazenovia, NY. Well-known as a supplier of timers and controls, Airotronics celebrated its 50th year in 2005. Additional Pelco Component Technologies brands include STK Electronics film capacitors, Trimax circuit protectors and Flexcon flexible test connectors. Recent addition Peltec Timers offers high-quality, low-cost DIN rail timers, time-based controls, sensors and monitors.

Our representatives and engineers are ready to answer questions and provide the right solution. We value clear, concise communication with distributors, engineers and purchasing agents. You'll always hear from a real person who understands our products and your needs.

Pelco components provide so many ways to manage, test and control electricity in a wide variety of products and services. From trains to dishwashers, grocery stores to gas stations, products from Pelco Component Technologies help make things happen at the right time. We call it Putting Power to Work.
