READY FOR DIN RAIL PRODUCTS?

PELTEC TIMERS UPDATE

Peltec offers timers, voltage monitors, phase monitors, current sensors and power

relays with convenient DIN rail mountings.

Catalog complete

Our extensive product range is detailed in the new Peltec catalog.

Download a reference mini-catalog PDF from the Peltec website, with a complete listing of the four product series.

Website live

Pelco's newest brand is supported by personal service, technical support, and an easy-to-use website. As with our other Pelco sites, product overviews are organized by series, for hassle-free reference. Full specs and options for each product are available in pdf format.

Check out the Peltec website at peltectimers.com

User-friendly website includes product overviews, detailed pdfs, contacts and ordering information.

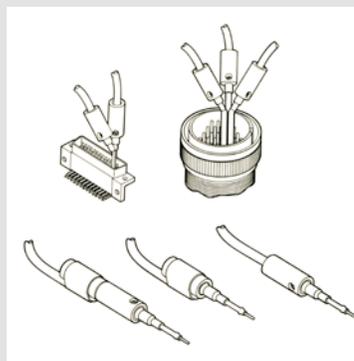

STK ELECTRONICS ONLINE

A vast resource of standard and custom film capacitors is now available online at STKElectronics.com, the latest update from Pelco Component Technologies.

Over 50 capacitor series are represented, with hundreds of options for capacitance, voltage, tolerance and case type. Downloadable pdfs provide details for each series, and are easy to locate at the new website.

Polypropylene, polyester and specialized materials are available. Quality is designed in, built in, and tested for approval, ensuring all STK Electronics capacitors are Putting Power to Work – just as expected.

DON'T FORGET the FLEXCONS!

Reliable, durable and easy to use, remember Flexcon flexible test connectors for electronic, electrical and communications systems, computers, space vehicles, missiles, aircraft and other military equipment.

For info and pdf brochure, visit www.flexcontestconnector.com

AIROTRONICS on GLOBALSPEC

For customers who prefer to search for products using standard database criteria, the complete Airotronics line is represented on GlobalSpec, the Engineering Search Engine. Results have included increased impressions and trackable leads for Pelco representatives during the past 18 months. .

CONGRATULATIONS, REPRESENTATIVES!

North American representatives for Trimax and Airotronics received the following awards:

Airotronics 2007-2008

Sales Excellence Gold Level

Crawford Associates
Levine Electronics and Lectric, Inc.
McNeill & Co.
Texas Technical Products
Torlex
Trinity One

Sales Excellence Silver Level

Access Control Sales

Sales Excellence Bronze Level

Electroline Sales

Highest Percentage Increase in Sales Dollars

Crawford Associates

Trimax 2007-2008

Sales Excellence Gold Level

Midwestern Sales

Highest Percentage Increase in Sales Dollars

Midwestern Sales

THE NEXT LEVEL at PELCO

Peter Kip, Jr is now President of Pelco Component Technologies. Peter is responsible for strategic planning, long-term growth and all day-to-day operations at Pelco.

Bill Merlini is now Chief Financial Officer, overseeing all financial responsibilities for the organization.

Randy Page is now Director of Sales and Marketing, supporting and promoting all Pelco brands.

Marc Bicknell is now Director of Quality Processes, managing quality programs and manufacturing processes.

ADDITIONS at AIROTRONICS

Douglas Schwarz, Engineering Technician, x209

David Barilla, Production Manager, x249

Joe Maio, Design Engineer, x233

Mike Emeny, Software Technician

- All Peltec products have DIN rail mounting, UL and CE approvals, and are RoHS compliant

NEW PELTEC 4116U

Universal Voltage DIN Rail Power Relay

- 12-240VAC / VDC Operational at any voltage
- Relay output form: SPDT – 16 Amps
- Output indicator is intensified by lens. Red LED is standard, other colors are available.
- Coil is diode-suppressed

NEW PELTEC 256-480

Voltage and Phase Monitor

- Relay monitors phase sequence and failure
- Designed for monitoring 3-phase primaries: Input from all phases maintains functionality in case of one-phase failure
- Input and monitored input voltage: 3 x 480V
- Fixed and adjustable time delays
- Relay output form: SPDT (form C) 8 Amps / 250VAC

NEW PELTEC 191

Multifunction Timer with 10 Selectable Timing Modes

- Input voltage 12-240 VAC / VDC
- Relay output form: SPDT – 16 Amps
- Timing modes: 4 controlled via input voltage, 5 controlled via control switch, 1 with memory alternator
- Time range setting from 0.1 second to 10 days
- Output indicator: Multifunction red LED, flashing at various rates

Product listings and catalogs At Pelco, we are continuing informative updates to our catalogs and websites. Browsing is available through globalspec.com and thomasnet.com, and we welcome your comments and inquiries. Complete, updated catalogs are available upon request for all Pelco brands. Call us directly or contact your rep for details on the best service in the business—from Pelco Component Technologies.
